## PSYCHOLOGY

Psychology touches almost every facet of our lives. As society has become progressively more complex, psychology has assumed an increasingly important role in solving human problems. From school, job & family problems to economics, politics, media, technology and global issues, psychology affects our lives daily.

This introductory course in Psychology will give you a better understanding of why people behave as they do and should give you a better insights into your own attitudes, reactions and relationships. This course may enlighten you or persuade you to seek higher training in psychology. From working as an independent consultant to working in schools, organizations, corporations, there are enormous opportunities for qualified psychologists to work and help our children, young adults, elderly, and families.

**All programs, including Continuing Education programs are available on-line.** Credits earned can be transferred for training in many other professions e.g. Business, Health Care, Arts, Humanities & Social Sciences or Language & Cultures. New classes start in January, April, July and October. Accelerated programs, credits for previous studies, scholarships, student loans and easy monthly payment facilities are available. Additional, non-credit courses, can be had for \$5.00 per hour, based on availability. Please refer to DII school catalog or contact the Registrar for more information.
